

CableCURE
A SERVICE OF UTILIX

UtilIX[®] Corporation Selected by Florida Power & Light Company for Multi-Year Cable Rehabilitation Program

SEATTLE--(BUSINESS WIRE)—Feb 14, 2008---UtilIX[®] Corporation (An InfrastruX Group company) announced that it has received a multi-year order from Florida Power & Light Company (**FPL**) to perform cable rehabilitation services including its proprietary CableCURE[®] cable life-extension technology. FPL anticipates treating an estimated 300,000 feet per year of aged URD primary cable over the three year agreement term.

FPL, the largest investor-owned utility in Florida, is a longtime UtilIX customer that has utilized CableCURE injection to increase the remaining life and reliability of its aged distribution cable. The utility has already treated over 7 million feet of cable, ensuring reliable power to many of its customers.

“By continuing with UtilIX’s proven process, FPL joins a growing number of utilities that are strengthening the reliability of the cables delivering power to their customers,” said Gus Derezes, Vice President of UtilIX Corporation. “We are pleased that FPL has chosen to work with us on this important project.”

About Florida Power & Light Company
